

Jatin Joshi

Software Developer | Full Stack .NET Developer

Rajkot, Gujarat, India | +91 9558137289 | jjdb0412997@gmail.com

Portfolio: [Jatin Joshi](#) | LinkedIn: [Jatin Joshi](#) | GitHub: [Jatin Joshi](#)

Professional Summary

Full Stack .NET Developer with 5+ years of experience developing production web applications using C#, ASP.NET Core, Angular, Blazor Server, SQL Server, and Azure DevOps. Experienced in RESTful API development and integration, role-based access control (RBAC), OAuth and JWT authentication, responsive user interfaces, and enterprise business workflows. Skilled in performance optimization using Entity Framework Core, LINQ, stored procedures, and T-SQL.

Technical Skills

Languages: C#, TypeScript, JavaScript, SQL

Backend: .NET, .NET Framework, ASP.NET Core, ASP.NET MVC, Blazor Server, REST APIs, Microservices

Frontend: Angular, HTML, CSS, Bootstrap, jQuery, Ionic

Database: SQL Server, Entity Framework, Entity Framework Core, LINQ, T-SQL, Stored Procedures

Security and Integrations: OAuth 2.0, JWT, RBAC, SignalR, WhatsApp API, OneSignal, Flywire, Zoho CRM

DevOps and Delivery: Azure DevOps, Cloud Deployment, Agile, Sprint Planning, Code Review, Requirements Analysis, Troubleshooting, Issue Triage, Technical Documentation

Professional Experience

.NET / Blazor / Angular Developer

Connectus Infoway Pvt. Ltd. | Rajkot, Gujarat | 2022 - Present

- Develop and integrate 20+ REST APIs per sprint to support business logic and third-party platform communication.
- Build full stack enterprise applications using C#, .NET, ASP.NET Core, Angular, Blazor Server, and SQL Server.
- Implement role-based access control using OAuth and JWT authentication across internal workflows and applications.
- Optimize database performance using Entity Framework Core, LINQ, stored procedures, and T-SQL.
- Design modular Angular components and responsive user interfaces for business workflows.
- Support cloud deployment, Azure DevOps pipelines, troubleshooting, issue triage, and technical documentation.
- Collaborate with cross-functional teams to analyze requirements, plan sprints, review code, and deliver features.

Junior .NET and Angular Developer

Mehta Websolutions | Jamnagar, Gujarat | 2020 - 2022

- Resolved 10+ weekly support tickets by troubleshooting .NET and Angular web application issues.
- Developed web applications and backend services using C#, .NET Framework, Angular, and SQL Server.
- Built administrative dashboards, custom data tables, reporting features, and CRUD modules.
- Improved data entry, editing, and record-management workflows across internal web applications.
- Optimized SQL queries and Entity Framework code to improve data-layer efficiency and application performance.
- Used TypeScript and ASP.NET Core to deliver integrated frontend and backend features.

Projects

Raats Motorsports Platform

Technologies: .NET 9, Angular 21, Entity Framework Core 10, REST APIs

Developed an operations management platform for tyre services, including quotation management, appointment scheduling, logistics coordination, workflow automation, and role-based access control.

Villa Management ERP

Technologies: Blazor Server, .NET 9, SQL Server, Flywire, Zoho CRM, REST APIs

Built ERP modules for property and reservation management, quotation generation, multi-currency payment processing, and third-party CRM and payment gateway integrations.

Prognosis Finance ERP

Technologies: ASP.NET Core, C#, JavaScript, jQuery, SQL Server, Entity Framework Core, REST APIs, WhatsApp API

Migrated legacy desktop workflows to a web-based finance ERP system and developed business modules, API services, database functionality, and WhatsApp messaging integration.

Horizon Health Insurance Platform

Technologies: ASP.NET Core 5, Angular 13+, SQL Server, REST APIs

Developed and maintained modules for underwriting, pharmacy benefit management, claims processing, sales operations, and financial operations.

Law Management System

Technologies: .NET 10, ASP.NET MVC, C#, SQL Server, Bootstrap, Reporting

Developed a legal case-management system supporting case tracking, parties, hearings, court orders, document management, advocate management, fee management, payment processing, and configurable reports.

Matrimonial Platform

Technologies: .NET Framework 4.8, ASP.NET MVC, C#, Entity Framework, jQuery, REST APIs

Developed responsive web UI, backend APIs, CRUD operations, user profile management, partner preferences, and core business workflows.

Matrimonial Mobile Application

Technologies: Ionic, Angular 13, .NET Framework 4.8, C#, REST APIs, SignalR, OneSignal

Developed cross-platform mobile application features, integrated RESTful .NET APIs, implemented real-time chat with SignalR, and configured push notifications using OneSignal.

Education

Bachelor of Computer Applications (BCA), Computer Science

Saurashtra University | Jamnagar, Gujarat | March 2018
